AUSTRALIA'S **LARGEST** GOVERNMENT TECHNOLOGY EVENT

Technology in Government brings together a high-level, public sector focused audience, with market leaders in ICT and emerging digital technologies.

It is Australia's LARGEST showcase of the most important ICT software, platforms and services to help to drive public sector & enterprise transformation.

WHY SHOULD YOU VISIT?

- ✓ **Meet with over 85+ exhibitors** demonstrating the most advanced technologies driving ICT initiatives at all levels of government
- ✓ **Attend FREE seminar sessions** where you can hear from world leading solution providers
- ✓ **Understand** which ICT products and services can help you achieve cost savings and improve effectiveness

WHO ATTENDS:

- CIO, CTO, CDO, CEO, COO
- Heads of departments/business units
- ICT and IT Managers
- Manager Information Services
- Project Officers
- Heads of Procurement
- Heads of Corporate Services
- Heads of Cyber Security/Information Security

UPGRADE TO A CONFERENCE PASS

Co-located along a buzzing solutions focused exhibition, the multi-platform conference program offers attendees the opportunity to create their own tailored experience. Closing the knowledge gap: the Technology in Government conference allows Federal, State and Local Government Departments and Agencies to collaborate, leverage collective knowledge and foster innovation.

THERE ARE 6 FOCUS DAYS TO CHOOSE FROM:

DAY ONE:

FEDERAL GOVERNMENT

Enhancing the systems that underpin Federal Government Operations

STATE AND LOCAL GOVERNMENT

Exploring trends and technologies that are driving State & Local Government modernisation

DAY TWO:

SECURE GOVERNMENT

Building cyber resilience

FUTURE SERVICES

Servicing tomorrow's digitally connected community

CITIZEN EXPERIENCE

Building better outcomes for government and citizens alike

ICT PROCUREMENT

Improving the lives of Australians through more effective digital services
